

# Josh Seiden & Harrison Chad

## A/V Requirements

- **Presentation:** Josh and Harrison prefer to present from their own MacBook Pro as they customize content for every event.
- **Mac Location:** The MacBook does not need to be on stage; it can be stationed with the production team or in the "Video Village."
- **Connections:** Please provide an HDMI connection and a Direct Box (DI) or 3.5mm audio jack to run audio directly from the MacBook Pro.
- **Slide Control:** Remote clicker for direct slide control (Perfect Cue or equivalent) that reaches the tech booth.
- **Audio:** Two (2) wireless lavalier microphones and one (1) wireless handheld microphone for audience interaction.
- **A/V Check:** Required no fewer than 30 minutes before taking the stage.
- **Monitors:** At least one (1) confidence monitor and one (1) stage timer set to count down the scheduled presentation time.
- **Stage Setup:** No podium preferred. If present, please move it to the back so the stage is unencumbered.
- **Hydration:** Two (2) bottles of room-temperature water on stage
- **Room Energy:** Programs are highly interactive; please prioritize filling the front rows first to maintain energy.
